Each Service is provided as a best effort service. Tusass aims to provide an uptime for all services of 99.6% measured over a calendar month but gives no guarantees.

Network faults, including faults for Global IP, National IP, Local IP, Connect IP, are prioritized over faults on individual services, including BSA and Co-location Services.

3 Compensation

If a Service is not available for more than 5 (five) consecutive days, a partial refund may be requested by the Service Taker.
